Departments may offer entry level, developmental courses on a S/U basis. The S/U basis may not be used for a repeated course or any lecture course in major discipline.

Withdrawal from Classes

For each term, deadlines have been set to define the period in which a student may withdraw from a course with a grade of "WP" (**Withdraw Passing**) or "WF" (Withdraw Failing). The deadlines are indicated on the academic calendar located on the inside of this bulletin. The vehicle for this application to the Registrar is the completed Course Withdrawal Form.

Withdrawal from the University

A student ceases to attend all classes and is no longer considered enrolled in the University. A student who withdraws before the end of the course drop period will have his or her entire semester's registration record removed from the permanent record. Withdrawal after the end of the drop period, but before 4:00 p.m. on the last day of classes, will result in a grade of "WP" or "WF" for each course. Withdrawal after the last day of classes results in grades earned for the term being recorded in the permanent record. The vehicle for this application to the Registrar is the completed *Petition of Separation Form*.

TAKING COURSES AT ANOTHER INSTITUTION

- a.** The Tidewater Consortium of Higher Education affords students the opportunity to take enrichment courses, not taught at the home school, at another member institution. Certain restrictions and regulations of the Consortium, the host schools, and Hampton University apply. This opportunity is only open to students with a grade point average of 2.000 or better and is designed to make available a wider variety of upper-division, elective courses.
- b.** A student may elect to take a course at any institution of higher education. To protect the student and to ensure that the student is able to have the course and its credit--not quality points--transferred back to his program at Hampton University, the students must secure permission from his or her academic advisor, department chairperson, and school dean before the end of the Hampton semester before taking the courses at the other school. Only grades of "C" or better will transfer back to Hampton. Standard forms and instructions may be obtained in each department.
- c.** Transactions to the student's record, e.g., transfer credit, can only be posted to the student's record if the student is currently registered when the transaction is received in the Registrar's Office. The appropriately approved, posted transaction will appear on the student's record when the current term is completed and the grades are processed.
- d.** The cumulative grade point average of each student will be calculated on work (courses) taken at Hampton University. All credits earned at other institutions, including those earned by students seeking reentry to the University, as well as those with approved permission to take courses at another institution, will be treated/classified as transfer credits. They may be used to reduce the number of hours required for graduation. However, they will not be used in calculating the cumulative grade point average.

GOOD ACADEMIC STANDING

Students whose cumulative averages are equal to or greater than the average for their tenure and who have met their financial obligations, and whose conduct is in keeping with the standards of membership in the university will be considered in good academic standing. Students in good academic standing are entitled to continue registration and class attendance and are eligible to apply for a degree upon completion of the necessary requirements. They are entitled to all the privileges of membership in the university, including residence, class attendance, examinations, participation in student activities (except as set forth below) and use of facilities under the regulations of the university. They are entitled to receive

regular reports of their progress, to have transcripts and other official documents issued upon request, and to use the placement and other student services of the university. Any student on academic probation may be retained in accordance with the university's regulations.

A student placed on probationary status is allowed to retain status as a student with the following provisions:

1. The students may not register for more than thirteen hours per semester. Exceptions to this rule must be approved by the Provost.
2. The student may not participate in extracurricular activities that are not class related; and the student may not travel in the name of the university or at university expense. Exceptions to this rule must be approved by the Provost.
3. All upper-class students placed on probation at the end of the semester must process through the Counseling Center at the beginning of the Fall or Spring semester.
4. All Freshman students placed on probation must process through Freshman Studies at the beginning of the Fall or Spring semester.

REFUNDS

Refund of Tuition, Room and Board Fees: Refund for students withdrawing from the University for any reason will be made in accordance with the scale listed below. The application, matriculation, and the advance deposit fees are **Non-refundable Fees**.
