FINANCIAL AID OFFICE

1. *Parents of dependent students are responsible for ensuring that the Free Application for Federal Student Aid (FAFSA) is completed and submitted to the U.S. Department of Education by January 2nd each academic year.

2. * Federal Educational Rights and Privacy Act (FERPA) - The Office of Financial Aid and Scholarships does not disclose personal or account information to any individual acting on behalf of the student, unless the student is present at the time of disclosure, or in cases where we have a valid federal tax return on file indicating the student is a dependent. The Office of Financial Aid and Scholarships will only provide account information to individuals over the phone with the consent of the Release Form filed in their financial aid records.

3. *All students attending must meet Satisfactory Academic Performance (SAP) guidelines in order to continue receiving aid, among other activities.

4. *To ensure fiscal integrity of Financial Aid programs, you may be required to undergo a process called Verification. If selected you would be required to submit important documents, such as: W-2, 1040, and any other information deemed sufficient.

5. For information concerning your student’s: bill, balance, applicable payment deadlines, tuition payment plans, financial clearance, etc…, you must contact the Office of Student Accounts.

6. If your student is expecting to receive federal, state, or institutional (Hampton University) funds, and he or she is expecting to receive additional aid, such as, but not limited to: external scholarships/grants, tuition assistance/stipends, etc… they are required to report this additional aid to the Financial Aid Office in advance. Please be advised that the Financial Aid Office reserves the right to adjust a student’s financial aid award package at any time during the semester to prevent a financial aid over-award.

7. Federal, state, and institutional funds are limited, so parents are expected to contribute to the student’s cost of attendance expenses. Without this contribution, financial aid alone, in most cases, cannot cover the cost of attendance expenses.

8. Parents should contact the student’s respective financial aid counselor in early Spring in order to address any outstanding issues/requirements which may impact the student’s financial aid package for the upcoming semester/academic year.

9. Parents of dependent students expecting to receive financial assistance during the Summer Session should have the student consult with their respective Financial Aid counselor during the period of April 1st and 15th to determine what financial assistance is available.

10. Due to federal regulations and institutional policies concerning enrollment standards and financial aid disbursements, parents are expected to financially assist their student(s) with preparations to purchase books and supplies at the beginning of each academic year until financial aid funds are disbursed.

11. Parents are required to read all available and adjoining links on the Financial Aid and Scholarships’ web page in order to gain a sense of awareness and understanding of the financial aid process at the institution.

12. Parents applying for federal (FPLUS) or private parent loans on the behalf of their student must be aware that they are required to successfully undergo a credit check annually, if expecting to receive financial assistance from these programs.

* For more information about these items, please visit the Financial Aid and Scholarships web page at: www.hamptonu.edu.
